<https://github.com/TihomirDenev> Sofia, Bulgaria

SUMMARY

With over 6 years of experience in customer service, I've gained valuable skills in teamwork, problem-solving, and working with diverse people. Now transitioning into programming, I've developed skills in front-end technologies like JavaScript, React, HTML, and CSS, complemented by back-end proficiency in Node.js and Firebase. I'm also familiar with UI libraries like Daisy UI, Tailwind CSS, and Chakra UI. Excited to apply my diverse background, creative mindset, and technical skills to contribute effectively to software development projects and applications.

PROJECTS

React Fitness Tracking App

Developed fitness tracking app offers both public and private features, including an administrative section, allowing users to send friend requests, add friends, create goals and exercises, and calculate their body mass index.

- Developed a single page application using JavaScript, React, Firebase Realtime Database, Daisy UI, Tailwind CSS, and hosted on GitHub.

<https://github.com/A58-Agents-Team1/Motion.Mate>

React Cooking Forum

Developed a culinary forum featuring both public and private sections where users can register, create, edit, and comment on recipes, as well as manage their profiles and profile pictures. Included an admin panel for user management and content moderation, ensuring a secure environment.

- Developed a single page application using JavaScript, React, Firebase Realtime Database, Chakra UI, and hosted on GitHub.

<https://github.com/A58-Agents-Team1/Tasty-Recipe-Talk>

GIFs SPA Application

Developed a dynamic Single Page Application using the Giphy API to display trending GIFs with infinite scroll, upload and manage favorite GIFs, and showcase random GIFs for a fun user experience. Employed CSS for responsive design and optimized state management for seamless performance.

- Developed a dynamic SPA utilizing JavaScript, CSS, leveraging the Giphy API, and hosted on GitHub.

Software solution for solving linear programming optimisation problems

Developed a program for linear programming, a method used to reach the optimal solution in mathematical models characterized by linear relationships between requirements and objectives. Linear programming constitutes a specific instance within mathematical programming.

- Technologies: Matlab

EDUCATION

Alpha JavaScript Track 01/2024 - 06/2024
[Telerik Academy](#) Sofia, Bulgaria

Bachelor's degree in Automatics, Information, and Control Technology. 09/2016 - 06/2020
[Technical University of Sofia](#) Sofia, Bulgaria

Profile Informatics with C++ (beginner knowledge) 09/2011 - 05/2016
[Science and Mathematics High School](#) Veliko Tarnovo, Bulgaria

MY LIFE PHILOSOPHY

Approach every task with a positive attitude and a smile, striving to improve and excel each time.

SKILLS

Front-End

JavaScript · React · HTML · CSS · Bootstrap ·

ES6 · Daisy UI · Tailwind CSS · Chakra UI

Back-End

NodeJS · Firebase

Tools and Libraries

Git · GitHub · Jest · ESLint

STRENGTHS

Communication Skills

After working in such large teams, I have learned to speak calmly and express myself clearly.

Learn how to be a leader

I learned how to identify valuable individuals, train them, effectively communicate with diverse personalities, and motivate them to achieve better results.

Adaptability and Work Ethic

In a dynamic environment, I learned discipline, persistence, and consistency in everything I do.
